

Year 3 Progression in Geography

	Locational Knowledge	Map skills	Place Knowledge / Comparison	Human / Physical Geography
YEAR 3	<ul style="list-style-type: none"> Understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom Name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time Locate the world's countries, using maps to focus on Europe (including the location of Russia) 	<ul style="list-style-type: none"> Use the eight points of a compass, four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world 		<ul style="list-style-type: none"> Physical geography, including: mountains, volcanoes and earthquakes
	<p>Cities, Counties and Countries</p> <ul style="list-style-type: none"> I know the names and locations of cities and counties in the UK local and relevant to me I know the names and locations of European countries relevant to me I will know the names and locations of countries in the Northern and the Southern Hemispheres 	<p>Reading Maps</p> <ul style="list-style-type: none"> I know how to use the 8 points of the compass I know how to use grid references in a map I know how to use OS map symbols 		<p>Mountains</p> <ul style="list-style-type: none"> I know the key physical features of mountains and how they are formed <p>Volcanoes</p> <ul style="list-style-type: none"> I know the key physical features of volcanoes and how they are formed <p>Earthquakes</p> <ul style="list-style-type: none"> I know what an earthquake is and how they are formed.

				<ul style="list-style-type: none"> I know how earthquakes are measured and how different earthquakes impact differently.
	<p>Cities, Counties and Countries</p> <ul style="list-style-type: none"> I will know the names and the location of cities in the United Kingdom, local and relevant to me I will know the names and the locations of counties in the United Kingdom, local and relevant to me I will know the names and the location of European countries on a World Map and a globe I will know how atlases provide information about the features of places I will know the location of countries in the Northern and Southern Hemisphere I will know the key differences between the Northern and Southern Hemisphere 	<p>Reading Maps</p> <ul style="list-style-type: none"> I will know the 8 points of the compass I will know how to use simple grid references I will know the key features of an OS map 		<p>Mountains</p> <ul style="list-style-type: none"> I will know the location of Mount Everest on a map or globe and can describe its position I will know the physical aspects of Mount Everest I will know the names and location of the mountains of the United Kingdom using an OS map I will know the names and location of the 5 highest peaks across the continents I will know how mountains are formed <p>Volcanoes</p> <ul style="list-style-type: none"> I will know where volcanoes are formed I will know why a volcano erupts I will know the structure of volcanoes I will know the location of volcanoes across the world I will know the use of settlements and land next to a volcano <p>Earthquakes</p> <ul style="list-style-type: none"> I will know what an earthquake is and how it is formed

				<ul style="list-style-type: none">• <i>I will know how earthquakes are measured and that different earthquakes will impact differently</i>• <i>I will know the significance of the San Andreas Fault for the people who live there</i>• <i>I will know what a tsunami is</i>
